

The Modern Slavery Act 2015 requires those entities carrying on a business or part of a business in the UK, supplying goods or services, and having an annual turnover of £36 million or more to disclose information regarding the steps they have taken to eradicate slavery and human trafficking from their supply chain as well as within their own organisation during the previous financial year.

MODERN SLAVERY ACT STATEMENT

It continues to be a priority for Metabolic Healthcare Limited to ensure that we trade ethically, source responsibly and work to prevent modern slavery and human trafficking throughout our organisation and in our supply chain. This statement is made pursuant to Section 54 of the Modern Slavery Act 2015 and highlights the key activities we have undertaken during the financial year ending 31 March 2022 to combat modern slavery in our organisation and supply chain.

BUSINESS STRUCTURE AND ORGANISATION

Metabolic Healthcare Limited trading as Lloyds Direct is part of the Hallo Healthcare Group which was acquired by Aurelius Group in April 2022 and has its head office in the UK.

Lloyds Direct is one of the fastest growing online pharmacies in Europe and currently helps over 590,000 patients in the UK to conveniently manage their NHS prescriptions. Since 2015, Lloyds Direct has been working with GPs, delivering to any UK address for free, and reminding patients to order and take their medicine. Lloyds Direct became part of the Lloyds Pharmacy family in 2019 enabling us to provide patients with the option to collect their medicine at a local Lloyds Pharmacy instead.

OUR POLICIES, VALUES AND TRAINING

We have appropriate policies in place that underpin our commitment to combat modern slavery and human trafficking in our supply chains or in any part of our business. Our policies are reviewed and updated regularly.

Our Modern Slavery Policy reflects our commitment to acting ethically and with integrity in all our business relationships and to implementing and enforcing effective systems and controls to guard against slavery and human trafficking in our supply chains. The Policy is available to all colleagues through our intranet together with a training video summarising modern slavery risks and the potential impact on our business.

We also have the following policies in place relevant to modern slavery and business relationships, which are reviewed and updated regularly:

- Code of Conduct
- Recruitment Policy
- Procurement Policies
- Whistleblowing Policy and procedures
- Anti-Bribery and Corruption Policy
- Grievance Policy

We are committed to sourcing quality products from, and building relationships with, suppliers who share our values and ethical standards. We do not enter into business with any organisation, in the

UK or abroad, which knowingly supports or is found to be involved in slavery, servitude and forced or compulsory labour.

Our Code of Conduct provides important guidelines for interactions with customers, suppliers and other business partners. At the core of the Code of Conduct and our activities are our ICARE principles which are; Integrity, Customer-first, Accountability, Respect and Excellence.

We are an equal-opportunities employer committed to creating and ensuring a non-discriminatory and respectful working environment for our colleagues. Our recruitment and people management processes are designed to ensure that all prospective colleagues are legally entitled to work in the UK and to safeguard colleagues from any abuse or coercion once in our employment.

We want all our colleagues to feel confident that they can expose wrongdoing without fear of retaliation.

Our Whistleblowing Policy encourages all colleagues to raise concerns including potential violations of the Code of Conduct, company policies, and the laws of the countries in which we operate. We have reporting mechanisms in place to collect and relay information regarding potential violations to appropriate company resources for review and follow up action.

As part of our preparations for the acquisition by Aurelius Group, we reviewed our whistleblowing framework and made adjustments where appropriate, such as replacing our European external confidential helpline with a UK-based confidential helpline which is available 24 hours a day, 7 days a week. Details of the new helpline and a reminder of our whistleblowing procedures were promoted to colleagues across the business via our internal communications channels and targeted awareness raising sessions.

We provide online and/or face to face training for colleagues to emphasise the importance of acting with integrity and in line with our ICARE principles and Code of Conduct.

SUPPLY CHAIN AND DUE DILIGENCE

Our principal suppliers are regulated manufacturers and distributors of medical-surgical products, medical devices and pharmaceutical products.

Some of our suppliers are located in countries that may be more vulnerable to human rights abuses than others. That is why we have several methods to manage our zero-tolerance policy for such abuses, including the following:

- We clearly communicate our expectations to suppliers to ensure adherence to our values and ethical standards.
- We establish appropriate policies and processes within our businesses to make sure that the products we purchase and sell comply with our ethical standards.
- We utilise both internal and external resources to evaluate the factories of our suppliers based in higher risk countries and audit them against recognised industry standards.
- We are working to broaden our responsible sourcing and factory audits to encompass all suppliers of our own brand products, irrespective of location.

- Our supplier agreements include language that requires our supplier to obey national and regional statutory requirements in the country in which they operate, including where appropriate, any applicable laws regarding human trafficking, forced labour and other forms of modern slavery.

For our responsible sourcing and quality management systems, we have designed and implemented a number of processes to assess suppliers of the products introduced into the supply chain. The focus areas included in the assessment process include, but are not limited to, Commercial, Compliance and Quality Assurance.

Adverse audit findings, non-conformities and other remediation requirements are prioritised based on risk. If remediation is required, we work with our suppliers to improve their standards with corrective action plans and on-going reviews to make sure our standards are maintained. We aim to build relationships with our suppliers to ensure adherence to our values and ethical standards. If a supplier fails to adequately remediate the issue, the relationship would be re-evaluated and if necessary, terminated.

Our group of companies continues to have the benefit of access to Sedex (Supplier Ethical Data Exchange), one of the world's largest collaborative platforms for sharing responsible sourcing data on supply chains. This provides us with access to a wealth of data and information around the ethical performance of potential suppliers for our own brand range of products.

EFFECTIVENESS

We regularly review our monitoring programme to ensure our actions are appropriate and we believe our efforts to date have been effective in preventing slavery and human trafficking from being part of our supply chain.

Training sessions for existing colleagues on the key compliance risks affecting our business and inductions for new starters include the topics of supplier due diligence and modern slavery as appropriate.

Modern slavery risks are captured in our Corporate Risk Register.

STATEMENT OF APPROVAL

This Statement has been approved by the Board of Directors of Metabolic Healthcare Limited, and the Board has authorised Wendy Hall, Director, to sign the Statement on behalf of Metabolic Healthcare Limited.
